

DEATH OF MAYOR CAUSES REGRET

Juarez Official Pays Touching Tribute to Deceased Mayor's Memory.

Most glowing was the tribute to the late mayor Robinson, as presented at Thursday council meeting by Jefe politico Francisco Portillo of Juarez. But the Mexican official's remarks were not fully appreciated, because of hasty translation.

A careful translation from the Spanish was made by The Herald. Mr. Portillo, mayor of Juarez, regarding the late W. F. Robinson, mayor of El Paso, said:

"His excellency, Enrique C. Creel, as constitutional governor of Chihuahua, has conferred upon me the most honorable commission to offer, in his name, a manifestation of condolence to the authorities and to the city of El Paso, in regard to the loss which has been suffered by the death, never to be sufficiently regretted, of your mayor, honorable W. F. Robinson, whose virtues were known in our country, notwithstanding the short time which he held this elevated position.

"To comply with the wish of the honorable Enrique C. Creel, I am accompanied by the members of the council of Ciudad Juarez, here present, with the object of expressing to you also regrets in the name of the acting governor of Chihuahua, the honorable Jose Maria Sanchez, and likewise in the name of the city which we represent, and which only faintly saw the many good things which we could have expected from the sincere sentiments and frank friendship of mayor Robinson, for conservation of good will and harmony between the two cities, so necessary for their progress and so helpful to their mutual interests.

"Having fulfilled our commission, it is my duty to extend to you thanks for the high distinction which you have granted by admitting us to this meeting."

SENATOR STONE SITS IN TIMBER HEARING

San Francisco, Calif., Aug. 19.—United States district attorney Robert T. Devlin was the principal witness here in the investigation being conducted before United States senator W. S. Stone of Missouri in the practice of federal officers in court practice. The case of Dr. E. B. Perrin of Williams, Ariz., was the basis of the inquiry. Dr. Perrin was convicted in the federal court of illegal procedure in the acquisition of government timber land in California and Devlin and his assistant, A. P. Black, prosecuted him. The decision of the lower court was set aside and Dr. Perrin charged that he had been persecuted by William J. Burns, a government detective, and Devlin.

NEW BLACKSMITH SHOP IS OPENED AT VAUGHN

Vaughn, N. M., Aug. 18.—Moys and Hill have built and will operate a blacksmith shop on Cedar street. J. C. Givings has bought a lot in Hardie addition and will put up a residence soon. Mel Hunt, of Fort Worth is here to look after his cattle interests. He is a guest of his partner, J. F. Williams. The aid society of the Baptist church gave a pie supper at the schoolhouse. Mrs. J. C. Hicks entertained a number of friends in honor of her husband's birthday.

ODDS AND ENDS

NO RESERVE NOW---

THERE is nothing left for us to do now but close out completely all remaining summer stock. Broken Lines and Odd Lots have no place in our store. Winter is a long way off and you will have time to realize lots of service on the goods we now offer.

EVERYTHING A BARGAIN

A "Bazaar" Bargain is always just a little better than the ordinary ones. Now, your money buys here values that only occur occasionally. Not an item in the Odds and Ends sale that does not stand out as a big bargain.

NEW FALL GOODS COMING

Arrivals of Fall Goods are now following each other in quick succession. Room must be made, so we ask you to come and carry off all remaining summer stock.

Look Around

For a moment at the great army of business men who pass daily in review on our busiest streets. Can't you invariably select from among them the prosperous and the successful? You may not realize it, but your impression is gleaned from the "get up" of the man. Successful men regard good dressing as of the essence. We cater to the demands of the prosperous element because we have the materials with which to build and the workmen who know how to utilize them. Our clothes cost but little more than ready-to-wear garments.

MARFA EPISCOPALIANS GIVE ICE CREAM SOCIAL

New Rancher Moves His Stock to Marfa.

Visitors From Other Texas Towns Are Numerous.

Marfa, Tex., Aug. 19.—The women of the Episcopal church gave an ice cream festival at the opera house which was a social and financial success. Dr. Jones and family came over from Davis to attend.

Miss Anna Allen, of San Antonio is visiting Mrs. H. M. Furell. W. B. Mitchell, who has been spending the summer in Marfa, has returned to his home in San Marcos.

Murray Greenwood, who has been visiting relatives in the city, has returned to his home in Alpine. Mrs. Charles Kramer has as her guest Miss Kiser, of Lockhart, Tex.

Mr. Fitzgerald, of Sweetwater, who has purchased a ranch in this county has arrived, bringing a part of his cattle with him. He expects to bring the remainder of his stock in a short time.

Mr. Luthy, operator at Alpine, is spending a few days in Marfa.

Mrs. L. M. Huffman and two children of Del Rio, are in Marfa for the benefit of the children's health. Mrs. Huffman is with Mrs. N. G. Young.

Jesus Ruyde Espaya, deputy collector of Las Vacas, is visiting friends in the city for a few days.

Miss McCracken, who has been visiting her brother, has returned to her home in Floresville. She was accompanied by Mrs. R. S. McCracken and children, who will visit in Floresville for a few weeks.

The Horns of a Dilemma

Need not worry you at all when it comes down to selecting the right place to buy your Meats. We handle the very best qualities of city dressed Beef, Veal, Mutton, Lamb, Pork and Poultry, and we guarantee the uniform tenderness of all our Meats. Our steaks, chops and cutlets are praised for their fine flavor and tenderness. No high prices here.

DEVELOPMENT FAST IN GLOBE ARIZ., PROPERTIES

Underground Bin in Miami Mine—Warrior Ships Ore to Smelter.

Globe, Ariz., Aug. 19.—Underground work at the Miami is practically at a standstill, due to the fact that the development has reached a stage far in advance of the concentrator. All the levels above the 420 foot level have been sampled and are in shape for ore extraction. The sampling was done by cutting horizontal strips along the walls of the drifts and crossdrifts and taking a 40 pound sample every five feet. These samples were afterward quartered for assaying. Raises were sampled every five feet.

Underground Bin Completed. An extensive underground bin on the 420 foot level, into which all the ore from the upper levels will be dumped, is nearly completed. It is lined and reinforced with concrete and is to hold 750 tons. There is a subsidiary bin near the shaft capable of holding a skip load of ore into which the ore from the larger bin is measured during the intervals. The bin will later be abandoned in favor of the one on the next haulage level. Four of the six 1000 ton ore bins are nearly finished.

Warrior Ships Ore to Smelters. A drift is to be run west in the 300 level of the Warrior mine along the ore bearing trough. A crosscut run to cut the ore body some 50 feet and went through 20 feet of vein matter of which four feet was very high grade copper ore. Shipments of 100 tons of 10 percent copper ore daily are being made to the Old Dominion smelter. The company employs 40 men.

Double Shifts in National. Two shifts are at work on the National mine establishing a station at the 180 level of the William shaft. The shaft is now down to a depth of 791 feet. The station is to be continued into a drift along the Black Hawk vein and to parallel the drifts on the 660 foot level.

BALLINGER WHO IS SLATED TO RESIGN

Richard A. Ballinger, secretary of the interior, who has sent his resignation to president Taft, according to dispatches received from Beverly. With his exodus a great deal of the Republican party

turmoil is expected to end, and much of the bitterness that has been in evidence since the forcing out of chief forester Gifford Pinchot. President Taft is understood to have engineered all of these movements with a view to harmonizing the party in the coming congressional fights. Much of the activity of Mr. Pinchot will be abated, it is expected, now that Mr. Ballinger is booked to go.

REPAIRS INSTALLED IN PARADISE MINE EQUIPMENT.

Paradise, Ariz., Aug. 19.—A new plunger for the sinking pump has been brought from El Paso by superintendent Richards and placed in the shaft of the C. & P. Sinking has been resumed, two shifts being employed. Another shift will be put on this week. The force will number 30 men and work will be rushed day and night.

MINING AND OIL NEWS.

SABINAL CAMP IS PRODUCING GOLD

Telurium Is Also Procured From District Which Is Rich in Silver.

D. C. Sutton, general manager of the Boston-Mexican Development company, operating the Vismaga, Nopal, Palo Alto, Socorro and Socorro-Anexas mines in the Sabinal mining camp, 90 miles southwest of El Paso, in northern Chihuahua, Mexico, was at the Telurite club Friday, where he stated that he has all these properties under active development by means of tunnels and shafts, and all are showing up good ore. The Vismaga tunnel is now in 75 feet, the Socorro tunnel is in 300 feet, and will continue on till 1000 feet is attained, at which point the level of the tunnel will be about 500 feet below the surface. This tunnel will cut through six veins and pockets and cross the bedding planes of the limestone.

The Sabinal camp is a highgrade silver camp and now is adding gold and telurium to its record. It was discovered in 1883 by Isaac N. Stevens, John W. Baker, Mose Stevens and Jim Ingle, who located the famous Plancha de Plata and took out rich silver ore running several thousand dollars to the ton. The first shipment carried by the burros netted them \$60,000.

Another mine owned by Dr. Butler, a dentist, and A. H. Homps, a cook, of El Paso, was so rich from the grass roots that they took out about \$150,000 less than a month.

The Central Mining company is producing rich ore and is a steady shipper.

SOCORRO MINE DRIFTS IN GOOD MINING ORE.

Reported Average of \$10 Is Made—Mogollon District Properties Are Active—Stockholders to Meet.

Mogollon, N. M., Aug. 19.—At the Socorro mines development east and west in the lower levels continues in the same good grade milling ore, the 600 drift east still holding its width of over 20 feet. One thousand tons were milled during the week of a reported average of \$19 per ton. The new drift is working in harmony with the entire plant. A large consignment of bullion is being made.

At the Deadwood mines sundry freight and lumber shipments for the mill are being delivered daily. A large gang is employed in grading and erecting accessory buildings for the plant. A survey is under way for the pipe line which will deliver water to the mill by gravity from springs two miles up the gulch. An underground crew is drifting in good ore on the fourth level and sinking of the shaft continues.

The Mogollon Gold and Copper company stockholders' meeting will be held in Cooney on August 29.

The Enterprise Mining company sinking is in progress below the fifth level. A winze is also being put down in ore from the second level.

MINES DECLARE RECORD DIVIDENDS THIS YEAR.

During the first seven months of the present year, 117 mines and metallurgical works, according to the Mining World, disbursed dividends amounting to \$46,011,889, which is about \$8,000,000 more than was disbursed by 94 companies during the same period the preceding year. Of this amount \$19,538,466 was contributed by mines producing gold, silver, lead and zinc, and 21 copper properties have this year paid \$14,400,512 in dividends.

The records for the past ten years show that mining, when properly carried on, is one of the most profitable of the world's industries. The figures show that the 117 mining companies have paid out in dividends to the owners of stock the enormous sum of \$49,968,566 as a return on their combined capitalization of \$612,995,748, or 109 percent.

WOMEN ENTERTAIN MANY POOR CHILDREN

Feas. Given at Cleveland Square—Tour City in a Street Car With Band.

Children—500 of them—little girls, and big boys, mostly Mexican, all poor and all hungry, seemingly congregated Thursday afternoon in Cleveland Square. And after some big dollops the 500 were less hungry, no less poor, but all happy. Joy was rife.

It was the first attempt of a new El Paso institution—the all children's picnic, or any name you may call it. To the Catholic Women's association goes credit for the undertaking, although much assistance was given by the Sunshine society and the Women's Charity association.

This occurred: Lemonade and cookies, by the bucket, by the barrel, were distributed by tin cup and hand to the mob of juveniles at the base of the band stand. It started about 2 o'clock.

Music by Band.

Then there was music, Reyos Reyes.

"Kid band" being there. It was a free concert for children only. Any child was welcome, denomination and nationality not considered. The only requirement was childhood.

After the concert, began a pilgrimage over the city in street cars. Two open cars had been secured and these carried the picnickers over town and back, with the Kid band making all sorts of noise en route. In the words of a little American present: "There was nothin' to it but joy."

With Mrs. Thomas O'Keefe in charge of the Catholic committee, the following workers assisted:

Mrs. C. E. Kelly, Emma Logan, J. C. Kahan, J. E. Morgan, William Caples and others. As president of the Sunshine society, Mrs. William H. F. Judd headed the following committee: Mesdames J. J. Pearce, G. L. Warren, Lela T. Moore, J. J. Kaster, J. S. Moore, Horace W. Broadus, A. H. Howland, H. T. Bowrie, F. S. Hollington, Miss Justine Newbrough and others.

Miss H. Grace Franklin, field worker of the associated charities, brought 35 little members of the Prophetic club, each of whom wore the badge of the society.

TWO BIG MINING DEALS REPORTED IN LUNA COUNTY.

The Copper Queen company has purchased the Gosselman, Leatherwood and Billie Read properties in the Santa Catalina mountains in Pima county, Arizona, paying the owners the sum of \$138,000.

Another more important deal is reported from Tucson to the effect that the Copper Queen people have taken over the properties of the Imperial Copper company of Silver Bell, Ariz.

Brains Rule

This World--

Not muscle, but brains governing muscle.

The quality of brain can be changed by certain selection of food.

A food expert perfected a brain-building food by preparing certain elements in wheat and barley in a way that nature would make use of. That food is

Grape-Nuts

In it the Potassium Phosphate, obtained from nature's grains (not from the drug shop) is retained in minute particles. This has an affinity for Albumen, and these two with water make the soft gray matter in the brain and nerve center.

A solid fact you can demonstrate by the use of Grape-Nuts.

In 10 Days

you can see the difference in yourself, and know

"There's a Reason."
